

# BaseUrl and Browsers configuration

## playwright.config.js:

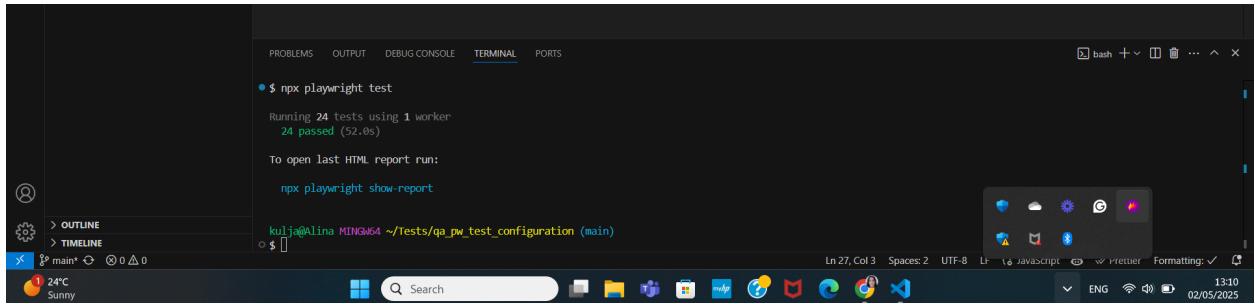

```
import { defineConfig, devices } from '@playwright/test';

export default defineConfig({
  testDir: './tests',
  fullyParallel: false,
  workers: 1,
  reporter: 'html',

  /* Shared settings for all the projects below. See
  https://playwright.dev/docs/api/class-testoptions. */
  use: {
    baseURL: 'https://conduit.mate.academy',
  },

  /* Configure projects for major browsers */
  projects: [
    {
      name: 'chromium',
      use: { ...devices['Desktop Chrome'] },
    },
    {
      name: 'firefox',
      testDir: './tests/signIn',
      use: { ...devices['Desktop Firefox'] },
    },
    {
      name: 'mobile-chrome',
      use: { ...devices['Pixel 8'] },
    },
  ],
});
```

Screenshot of “`npx playwright test`” run (all browser) with “24 passed” message:

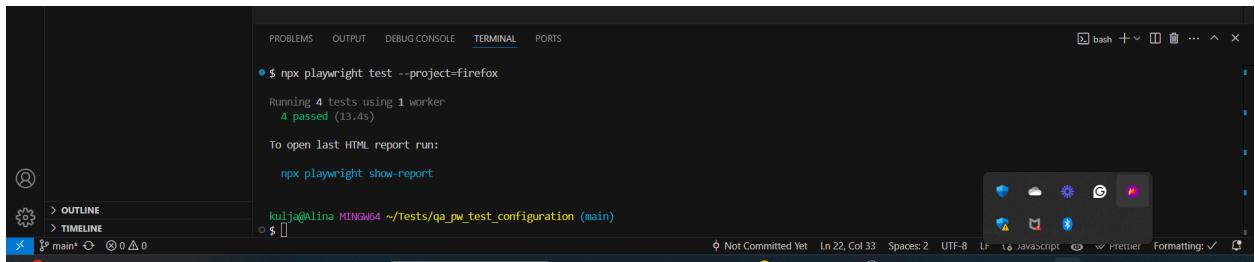

A screenshot of a Windows desktop environment showing a Visual Studio Code (VS Code) window. The terminal tab is active, displaying the command `$ npx playwright test` and its output: "Running 24 tests using 1 worker" and "24 passed (52.0s)". Below the terminal, the status bar shows "kulja@Alina MINGW64 ~/Tests/qa\_pw\_test\_configuration (main)". The taskbar at the bottom includes icons for File Explorer, Task View, and various browser windows.

Screenshot of “`npx playwright test --project=mobile-chrome`” run with “8 passed” message:

A screenshot of a Windows desktop environment showing a Visual Studio Code (VS Code) window. The terminal tab is active, displaying the command `$ npx playwright test --project=mobile-chrome` and its output: "Running 8 tests using 1 worker" and "8 passed (13.1s)". Below the terminal, the status bar shows "kulja@Alina MINGW64 ~/Tests/qa\_pw\_test\_configuration (main)". The taskbar at the bottom includes icons for File Explorer, Task View, and various browser windows.

Screenshot of “`npx playwright test --project=firefox`” run with “4 passed” message:

A screenshot of a Windows desktop environment showing a Visual Studio Code (VS Code) window. The terminal tab is active, displaying the command `$ npx playwright test --project=firefox` and its output: "Running 4 tests using 1 worker" and "4 passed (13.4s)". Below the terminal, the status bar shows "kulja@Alina MINGW64 ~/Tests/qa\_pw\_test\_configuration (main)". The taskbar at the bottom includes icons for File Explorer, Task View, and various browser windows.
